EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. (The attorney was called but could not be reached. The application has been amended as follows: The phrase "selected fro the group" of claim 26 in line 6 has been changed to---"selected from the group"-----.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 14 and 26 are allowable because the prior art of record fails to disclose or suggest or teach the recited gas temperature taken from a probe disposed at the entrance or the exit point of the tunnel; determining a first delta which is difference between the gas temperature and ambient temperature taken by a probe outside the tunnel; comparing the value of the first delta with a set point value; and controlling the extraction rate of the extraction means by feedback as a function of the result of the comparison in order to restore the value of the first delta to the set point value if necessary.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
